Heat Shrink Tubing

Polyolefin (Poly BV) Heat Shrink Tubing
 UL-approved versatile heat-shrink tubing for a variety of applications, made of radiation-cured polyolefin, flame-retardant, shrink ratio 2:1.

Material:
 Polyolefin, black and natural

Technical Data 401577

Material	polyolefin, cross-linked
Temperature range	-55°C - +135°C
Colour	black
Shrunk nominal diameter in mm	0,6
Delivery diameter in mm	1,2
Shrunk wall thickness in mm	0,41
Shrink rate	2:1
Min. temperature for complete shrinkage	100°C
Flammability	flame-retardant
Material characteristic	high flexibility
Releases	UL 224 125°C VW-1 600V file E204071
