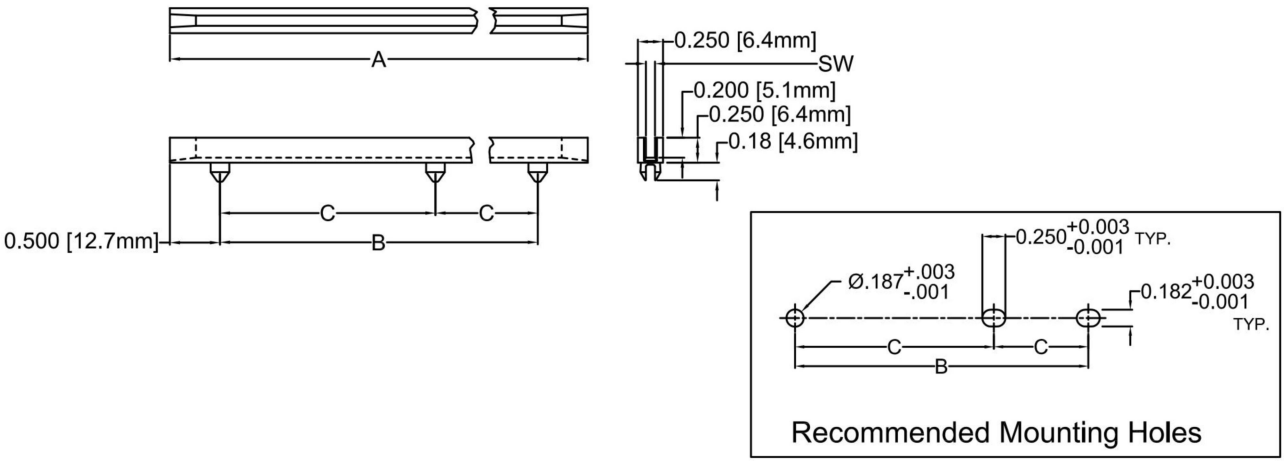
Leiterplattenzubehör

Horizontal, Pluggable PCB Guide
With a wall height of 5,1 mm this guide is able to cope with high shock and vibration environments. Rigid, strong and not flammable. The V-shaped openings on both sides allow for easy PCB insertion and also allows the stringing together of longer PCBs. Width 6,35 mm, Hole size 4,75 mm, snap-in thickness 1,2 to 2,3 mm
Material:
Glass-filled Nylon, black, UL94 V-0, temperature range: -40°C - +125°C

Technical Data ELBH

Fire protection class	UL 94 V-0
Assembly type	plug
Material	nylon 66
Material additive	10% glass-fibre reinforced
Colour	black
(A) length-overall in mm	63,5
(A length-overall) tolerance	±1,6
(B) distance between fastening spigots in mm	38,1
(Distance between fastening spigots B) tolerance	±0,8
Material thickness in mm	1,6
Number of card guides	Single-sided
Card guide characteristic	PCB guide horizontal


Drawing for Component
