Flexible Fibre Optic Light Guides

Flexible Fibre Optic Light Guide Cable

Our flexible fibre optic light guides are for SMD-LED's without LED. Our designs offer the greatest possible flexibility whilst light transmission to a front panel will remain unchanged in quality. Secure positioning. Used with SMD-LEDs (sold separately). Highly transmissive optical grade material.

Material:

Lens clear polycarbonate, fiber jacket PMMA, UL 94 V-0

Technical Data EFLS

Material	nylon 66
Fire protection class	UL 94 V-0
Light redirectors angle	0
Fiber Type	flexible
Number of optical fibers	1 light pipe
Face size Ø in mm	4,2
Face shape	round and flat
Include LED?	No
Material face	polycarbonate
Color face	transparent
